features

- **SPACE-CONSCIOUS DESIGN** distinguishes this versatile system from ordinary looking clock radios while compact styling also saves space on nightstand
- ▲ **LARGE/DUAL TIME DISPLAY** is backlit for day/night visibility, and shows both the current time and alarm-set time
- ▲ **4 BAND DIGITAL SYNTHESIZED TUNER (AM/FM/TV/WEATHER)** provides the most accurate drift-free tuning of all available radio stations for listening to radio talk and music shows, plus audio from TV channels 2-13, as well as up to the minute weather from your local Weather Band broadcasts
- ▲ **25 RANDOM MEMORY PRESETS** offer convenient one-button tuning to 10 of your favorite FM and 5 AM radio stations along with 5 TV channels and 5 weather frequencies
- ▲ **CD-R/RW PLAYBACK** plays all compact discs including CD-R (recordable) and CD-RW (rewritable); your own compilations from CD recorder deck or PC can be played on the unit, and it provides a great extension of ability to play network audio music from the Internet—a perfect companion for your PC music
- ▶ **HEADPHONE JACK** lets you enjoy private listening to favorite programs
- ▲ **MEGA BASS® SOUND SYSTEM** produces rich, deep bass tones for more powerful overall sound
- **TRIPLE ALARM: 3 TIMES/3 MODES (CD/RADIO/BUZZER)** gives you the convenience to set three different alarm times with choice of waking to CD, buzzer alarm, or a favorite radio station, for each different time
- **SNOOZINATOR™ EXTENDABLE SNOOZE (10 MINUTES-PER-TAP/60 MINUTES MAX.)** gives you the freedom to choose your personal snooze time instead of having to settle for the standard time intervals of other alarms; each press of the Snooze bar adds an additional 10 minutes to your snooze time, up to a full hour, so with a few quick flicks of your fingertips you can roll over for more uninterrupted sleep without having to re-set the alarm
- ▶ **NAP TIMER** is a separate button which allows you to take a short nap and wake up to radio or buzzer without changing your alarm settings (You can select your favorite nap time 10/20/30/60/90/120 minutes)
- **CD PLAY MODES (SHUFFLE/SHUFFLE-REPEAT/REPEAT-1/REPEAT ALL)** lets you hear CD tracks in multiple modes: in sequence as recorded, all tracks in random (Shuffle), repeat of all tracks in random order, a single track over and over or all tracks over and over
- ▲ **BRIGHTNESS CONTROL** allows you to adjust the brightness of the display
